

PELLET STOVES WATER BOILERS

COLORATO
www.colorato.net

Model	SUPER VULKAN
Type	PELLET STOVE WATER BOILER
Thermal efficiency max (kW)	23
Thermal efficiency of water (kW)	20
Thermal efficiency of radiation (kW)	3
Voltage and Frequency (V/Hz)	230/50
Pellet consumption min-max (kg/h)	1.3-4
Efficiency	90,1%
Thickness of the steel at the burning space and the fuel routes (mm)	4
Flue outlet (Ø mm)	80
Pellet tank capacity (kg)	30
Working power input (W)	100
Weight (kg)	180
Dimensions (mm)	W 595 H 1015 L 710
Heating area (m ²)	110-130
Electric resistance (W)	380
Certificates	CE
Available colors	Red Silver Beige Inox

Characteristics

With expansion tank and water pump. With remote control, auto-cleaning and temperature auto-control. Automatic shutdown or decrease of fuel consumption (EcoMode) once the space reaches the desired temperature, by keeping the temperature stable, resulting in the cost and energy saving. LCD control display with multiple functions with the ability to programme the temperature, timer of weekly starting and stopping and choice between 5 languages: Greek, English, Italian, Spanish, Japanese. With 5 years of guarantee for all parts apart from the electronics that have 1 year of guarantee.
