

## New CLF-45WDC Fan Series

### Ultimate cooling – silent & energy-efficient

The new CLF-45WDC wall fan series, featuring 5 plastic blades and a blade diameter of 45 cm, is designed to deliver high cooling performance, exceptional energy savings, and smart control for any space. With a modern design, silent operation, and advanced features, it's the ideal solution for homes, commercial spaces, shops, hotels, restaurants, gyms, warehouses, and factories.

#### Outstanding Advantages

##### DC Motor (Direct Current Motor)

- Silent operation with minimal energy consumption
- Stable performance with reduced wear and low operating temperatures
- Ideal for prolonged and daily use

##### Silent Operation

- Minimal noise: only 5 dB at the lowest speed
- Perfect for sleeping, offices, studying, or relaxing

##### Energy Saving

- Power consumption: 4W – 40W
- Low consumption at all speeds for extended daily use

##### Powerful and Flexible Performance

- Air delivery up to 90 m<sup>3</sup>/min
- 12 speed settings for complete customization based on your needs

##### Smart Control

- Wireless remote control to adjust the 12 speeds, timer, and left-right oscillation
- WiFi-enabled app control for iOS & Android
- 1–9 hour timer for scheduled use and energy saving

##### Waterproof Protection – IP65

- Certified protection against dust and water
- Ideal for outdoor use, such as patios, outdoor seating areas, or high-humidity professional environments

##### Versatile Usage

- Suitable for indoor spaces (25–40 m<sup>2</sup>) & outdoor spaces (15–20 m<sup>2</sup>)
- Durable construction with 5 plastic blades and 45 cm diameter

##### Why Choose the CLF-45WDC?

- Cutting-edge technology with simple, user-friendly control
- Ultra-low power consumption
- Full flexibility in speed and functionality
- Suitable for both professional and home users
- Excellent value for money
