

## **New CLF-45SDC Pedestal Fan Series**

### **Ultimate cooling – silent & energy-efficient**

The new CLF-45SDC pedestal fan series, with 5 plastic blades and a 45 cm blade diameter, is designed to deliver high cooling performance, excellent energy efficiency, and smart control in any space. With a modern design, silent operation, and advanced features, they are the ideal solution for homes, commercial areas, shops, hotels, restaurants, gyms, warehouses, and factories.

#### **Outstanding Advantages**

##### **DC Motor (Direct Current Motor)**

- Quiet operation with minimal energy use
- Stable performance with reduced wear and lower operating temperatures
- Ideal for long daily use

##### **Silent Functionality**

- Ultra-low noise: just 5 dB on the first speed setting
- Perfect for sleep, offices, studying, or relaxing

##### **Energy Efficiency**

- Power consumption: 4W – 40W
- Low energy use across all speeds for extended, everyday operation

##### **Powerful & Flexible Performance**

- Airflow delivery up to 90 m<sup>3</sup>/min
- 12 speed levels for complete adaptation to your needs

##### **Smart Control**

- Wireless remote for adjusting 12 speeds, timer, and left-right oscillation
- WiFi app control available for iOS & Android
- 1–9 hour timer for scheduled operation and energy savings

##### **IP65 Waterproof Protection**

- Certified protection against dust and water
- Ideal for outdoor areas such as patios, outdoor lounges, or professional environments with high humidity

##### **Versatile Use**

- Suitable for indoor spaces (25–40 m<sup>2</sup>) & outdoor spaces (15–20 m<sup>2</sup>)
- Durable build with 5 plastic blades and a 45 cm diameter

##### **Why Choose CLF-45SDC?**

- Cutting-edge technology with simple, user-friendly operation
- Extremely low power consumption
- Full flexibility in speed and features
- Suitable for both professional and home users
- Excellent value for money
